

Graduate Admissions

For a brochure on Graduate Studies in Physics and Astronomy at KU, click on [this link](#).

For more detailed information on our graduate program , click on [this](#) link. *last updated 10/7/10*

We offer the following graduate degrees.

Ph.D. in Physics

M.S. in Physics

M.S. in Physics with emphasis in Computational Physics and Astronomy

Requirements

[General Requirements for All Graduate Physics Degrees.](#) *last updated 10/7/10*

[Ph.D. in Physics.](#) *last updated 10/7/10*

[M.S. in Physics](#) *last updated 10/7/10*

[M.S. in Physics with emphasis in Computational Physics and Astronomy](#) *last updated 10/7/10*

Policy for implementation of new requirements: Unless otherwise specified, students will be held to the most recent version of the requirements that were approved by the department within 6 months of their start date.

A PDF archive of past requirements can be reached [here](#).

Did you know that he KU Department of Physics & Astronomy....

- Has tripled its external research funding in the last decade?
- Has a talented and energetic faculty working in a dozen areas of Physics?
- Has all of its full-time graduate students supported financially?
